NUS WMS List of Subprocessors

Edition **v2026-11-17**, in force from **17 November 2026**. This official English version was published on 17 November 2026. Both texts are authentic; in case of any discrepancy between them, the Ukrainian text (https://wms.com.ua/uk/legal/subprocessors) prevails.

This document is published in accordance with clause 10.7 of the **NUS WMS General Terms of Service** (edition v2026-11-17). Terms are used in the meanings given in the General Terms. For Clients to whom the Data Processing Agreement (Annex 3 to the Offer for Non-residents) applies, this List is Annex III to the standard contractual clauses.

---

1. Subprocessors

Subprocessor	Role	Categories of data	Place of processing
Google Cloud Platform	Hosting of the Service, Tenant databases, Backups, the limits and accesses server, logs and monitoring	All Tenant data; Account data (limits and accesses); User data under clause 10.3 of the General Terms	EU, Poland (europe-central2 region)
Google Workspace	Sending service notifications by email	User's email address and name, content of the message	No data storage region is fixed: countries in which Google or its subprocessors maintain facilities; processing is governed by Google's Cloud Data Processing Addendum; transfers outside the EU are made on the basis of the EU-US Data Privacy Framework and Google's standard contractual clauses
Hetzner Online GmbH	Billing system: records of Clients and invoices	Client's details and contact data	EU, Germany and Finland
Functional Software, Inc. (Sentry), EU region	Application crash reports	Technical crash data (stack trace, application and operating system version, device model); device data under clause 10.3(a) of the General Terms; internal User identifier	EU, Germany

The Provider is located in Ukraine; the administration of the Service and technical support are carried out from Ukraine (clause 10.8 of the General Terms). The Provider is not a Subprocessor and is not included in this List.

2. Procedure for changes

The Provider notifies the Client of the engagement of a new Subprocessor no later than 30 (thirty) calendar days before it starts processing data (clause 10.7 of the General Terms). Each change to the list is made by a new edition of this document. Corrections of inaccuracies in the description that do not change the set of Subprocessors and do not extend the scope of the data they process take effect in the manner provided for by clause 13.6 of the General Terms.
